

NAVIBRATION

The WAY OF KNOWING THE WORLD, REINVENTED

NAVIBRATION EXPERIENCES

Navibration is a navigation system by vibration with which you can move about anywhere in the world with no Internet connection or maps, and no need to look at your device.

Navibration Experiences will be the world's first DECENTRALIZED routes social network, in which the whole ecosystem will be built on **BLOCKCHAIN technology**. The routes will be geolocated (from corners of the entire planet) and audioguided (narrated by the main historical characters of each place). You will make the tour with our vibration navigation system. Multi language and at your own pace.

NAVIBRATION SMART CONTRACTS

The content of the routes will be created by the users themselves within our platform and the appearance of **our token (Navicoïn)** will allow us to develop a decentralized ecosystem in which it is possible to reward all users of the platform based on their contribution to it. All under blockchain technology and defined by **smart contract**: with each sale of a route, the users involved in its creation will be rewarded with our token in a fair, systematic and transparent way.

IN-APP PURCHASE

Users will be able to purchase Navibration Experiences routes using FIAT or Navicoïns.

NAVICOINS EXCHANGE

Purchases made with FIAT will be automatically transformed into Navicoïns.

SMART CONTRACT

We will use blockchain technology to define the reward system by smart contract.

REWARDS

Users involved in the creation of the route will receive Navicoïns as rewards.

NAVIBRATION MAIN FACES

FRANCISCO MERINO
Founder & CEO
Former Air Traffic Control Systems Developer at Indra

SALLY EAVES
Emergent Technology CTO
Official Member at Forbes Technology Council
Global Strategy Advisor

RICHARD WANG
Partner at DraperDragon Fund
Technical publisher in IEEE journal
GPS Expert

CHRISTEL QUEK
Advisor at Zilliq
Former Head of Content at Twitter
Former Business Lead at Samsung

OUR QUALITY SEAL

If you decide to bet on this project, you do it with the guarantee that the Ministry of Economy and Competitiveness of the Government of Spain has already done it before you, financing the initial development.

MUCH MORE THAN AN IDEA

PATENTED SYSTEM
The navigation system by vibration that will use Navibration Experiences is patented worldwide.

APP AVAILABLE
Our App Navibration, in which the final experiences will be enjoyed, is available on Apple Store and Google Play.

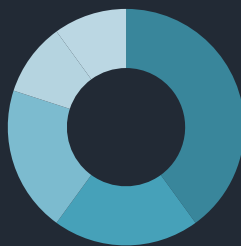

ALPHA AVAILABLE
Navibration Experiences is now available (alpha) within our App, with the first samples of cities.

Token distribution

- Token sale (40%)
- Community (20%)
- Future Airdrop for token holders (20%)
- Team (10%)
- Mentors and ICO costs (10%)

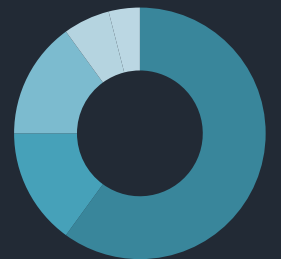

Token metrics

Token type	Ethereum ERC20
Token name	Navicoïn
Token symbol	NAVI
Token price	1 NAVI = 0.05 USD
Token supply	300 000 000 NAVI
Hard cap	6 000 000 USD
Token sale	2018 Q4

Intended use of funds

- Development (60%)
- Operations (15%)
- Marketing (15%)
- Legal and Administration (6%)
- Research (4%)
